BRAIN

A journal of neurology

Volume 119

Edited by W. I. McDonald

Deputy editors J. B. Clark
E. Bisiach

with the help of

H. Bachelard
D. F. Benson
Th. Brandt
L. Caplan
D. A. S. Compston
D. I. Graham
M. Hallett
J. S. Kelly
G. L. Lenzi
J. G. McLeod
C. D. Marsden
A. R. Mayes
J. C. Mazziotta
M. M. Mesulam
J. A. Morgan-Hughes
M. A. Ron
P. Rudge
G. Said
S. Shorvon
C. Warlow
D. S. Zee

Assistant Editor C. A. Lovelidge
Secretary and Treasurer R. S. J. Frackowiak

Title and subject index for Volume 119, 1996

Abnormalities of ocular motility in myotonic dystrophy (Anastasopoulos *et al.*), 1923
Abnormalities of the balance between inhibition and excitation in the motor cortex of patients with cortical myoclonus (Brown *et al.*), 309
The accuracy and precision of timing of self-paced, repetitive movements in subjects with Parkinson's disease (O'Boyle *et al.*), 51
Acquired pendular nystagmus (Lopez *et al.*), 465
Action recognition in the premotor cortex (Gallese *et al.*), 593
Activity-dependent changes in impulse conduction in a focal nerve lesion (Miller *et al.*), 429
Acute effects of levodopa on neuropsychological performance in stable and fluctuating Parkinson's disease patients at different levodopa plasma levels (Kulisevsky *et al.*), 2121
Adoptive transfer experimental allergic encephalomyelitis (Morrissey *et al.*), 239
Age-adjusted recurrence risks for relatives of patients with multiple sclerosis (Robertson *et al.*), 449
Age and hemisphere effects on dendritic structure (Anderson and Rutledge), 1983
Ageusia in hereditary ataxia (Fukutake *et al.*), 1011
Agnosia, tactile (Platz), 1565; (Reed *et al.*), 875
Alien hand syndrome (Tanaka *et al.*), 859
Allodynia, pain and thermal sensation in neuralgia (Rowbotham and Fields), 347
Alterations in peptide levels in Parkinson's disease and incidental Lewy body disease (Fernandez *et al.*), 823
Alzheimer's disease, and hippocampal atrophy (Fox *et al.*), 2001
face and name identification (Green and Hodges), 111
Amnesia, and confabulation (Schnider *et al.*), 1365
and disorientation (Schnider *et al.*), 1627
retrograde, and memory recovery (Kapur), 1401; (Spinnler *et al.*), 1403
Amputation, and perceptional changes (Knecht *et al.*), 1213
Amygdala lesion and startle reflex (Angrilli *et al.*), 1991
Amyotrophic lateral sclerosis, autosomal recessive adult-onset (Andersen *et al.*), 1153
frontal lobe dysfunction (Abrahams *et al.*), 2105
An analysis of clinical seizure patterns and their localizing value in frontal and temporal lobe epilepsies (Manford *et al.*), 17
Anterior cruciate ligament of knee (Valeriani *et al.*), 1751
Anti-epileptic drug effects on visual perception in epilepsy (Paulus *et al.*), 539
Antibody therapy for experimental autoimmune neuritis (Jung *et al.*), 1079
Antigen presentation by astrocytes primes rat T lymphocytes for apoptotic cell death: a model for T-cell apoptosis *in vivo* (Gold *et al.*), 651
Aphasia, and event-related potentials (Hagoort *et al.*), 627
bilingual subcortical (Aglioti *et al.*), 1551
progressive fluent, and cortical atrophy (Harasty *et al.*), 181
Apoptotic cell death of T lymphocytes (Gold *et al.*), 651
Apraxia, and movement imitation (Hermsdörfer *et al.*), 1575
and the basal ganglia (Pramstaller and Marsden), 319
Arm movements, single-joint rapid (Berardelli *et al.*), 661
Artificial neural networks, and neurodegenerative disorders (Litvan *et al.*), 831
Asp90Ala CuZn superoxide dismutase mutation in ALS (Andersen *et al.*), 1153
Assessment of lesion pathology in multiple sclerosis using quantitative MRI morphometry and magnetic resonance spectroscopy (Matthews *et al.*), 715
Astrocytes prime T-cell apoptosis (Gold *et al.*), 651
Astroglial cells and tumour necrosis factor (Köller *et al.*), 2021
Ataxia, autosomal dominant cerebellar (Bürk *et al.*), 1497
autosomal dominant pure cerebellar (Ishikawa *et al.*), 1173
hereditary, with thermoanalgesia (Fukutake *et al.*), 1011
Atherosclerotic peripheral vascular disease (Nukada *et al.*), 1449
Atrophy, cortical, in progressive fluent (Harasty *et al.*), 181
Attention disorders and brain damage (Godefroy *et al.*), 191
Auditory neuropathy (Starr *et al.*), 741
Auditory processing and left planum temporale (Binder *et al.*), 1239
Auditory word processing (Price *et al.*), 919
Augmented expression of tumour necrosis factor-α and lymphotoxin in mononuclear cells in multiple sclerosis and optic neuritis (Navikas *et al.*), 213
Autism (Happé *et al.*), 1377
Autoimmune neuritis, experimental, immunotherapy (Jung *et al.*), 1079
Autosomal dominant cerebellar ataxia type I: clinical features and MRI in families with SCA1, SCA2, and SCA3 (Bürk *et al.*), 1497
Autosomal dominant pure cerebellar ataxia: a clinical and genetic analysis of eight Japanese families (Ishikawa *et al.*), 1173
Autosomal recessive adult-onset amyotrophic lateral sclerosis associated with homozygosity for Asp90Ala CuZn-superoxide dismutase mutation: a clinical and genealogical study of 36 patients (Andersen *et al.*), 1153
Autosomal recessive muscular dystrophy (Illarioshkin *et al.*), 1895
Axonal excitability (Kiernan *et al.*), 1099
Axonal polyneuropathy with monoclonal gammopathy (Notermans *et al.*), 421

Basal ganglia and apraxia (Pramstaller and Marsden), 319
Behavioural laterality (Demirici), 2155; (Zaidel and Iacoboni), 2155
Benzodiazepine receptors in hippocampal sclerosis (Koepp *et al.*), 1677
Bereitschaftspotential (Bötzel and Schulze), 1045; (Jahanshahi *et al.*), 1046
Beyond unilateral neglect (Bisiach *et al.*), 851
Bilateral effects of unilateral visual cortex lesions in human (Rizzo and Robin), 951
Bilateral simultaneous transcranial Doppler monitoring of flow velocity changes during visuospatial and verbal working memory tasks (Cupini *et al.*), 1249
Bilingual subcortical aphasia (Aglioti *et al.*), 1551

© *Oxford University Press 1995*

Blind hemifield and motion evoked responses (ffytche *et al.*), 1971
Blindness, and a visual prothesis (Schmidt *et al.*), 507

Cerebral atrophy in multiple sclerosis (Losseff *et al.*), 2009
Cerebral benzodiazepine receptors in hippocampal sclerosis: an objective in vivo analysis (Koepp *et al.*), 1677
Cerebral blood flow velocity changes during cognitive activity (Cupini *et al.*), 1249
Cerebral control of eye movements. 1. The relationship between cerebral lesion sites and smooth pursuit deficits (Lekwuwa and Barnes), 473
Cerebral control of eye movements. 2. Timing of anticipatory eye movements, predictive pursuit and phase errors in focal and cerebral lesions (Lekwuwa and Barnes), 491
Cerebral lesions, and eye movement deficits (Heide *et al.*), 1951
motion perception and smooth pursuit (Barton *et al.*), 1535
Cerebral organization of component processes in reading (Pugh *et al.*), 1221
Cerebrospinal fluid from multiple sclerosis patients inactivates neuronal Na^+ current (Köller *et al.*), 457
Changes in cortical activity during mental rotation: a mapping study using functional MRI (Cohen *et al.*), 89
Changes in excitability and impulse transmission following prolonged repetitive activity in normal subjects and patients with a focal nerve lesion (Kiernan *et al.*), 2029
Channels of the corpus callosum: evidence from simple reaction times to lateralized flashes in the normal and the split brain (Demirici), 2155
Charcot–Marie–Tooth neuropathy (Hanemann *et al.*), 1461
Childhood generalized and mesial temporal epilepsies demonstrate different amounts and patterns of hippocampal neuron loss and mossy fibre synaptic reorganization (Mathern *et al.*), 965
Children's brain development (Reiss *et al.*), 1763
Chromatic contrast responses in optic neuritis (Porciatti and Sartucci), 723
Chromosome 2p-linked muscular dystrophy (Illarioshkin *et al.*), 1895
Chronic acquired demyelinating neuropathy (Krarup and Trojaborg), 257
Chronic idiopathic axonal polyneuropathy: comparison of patients with and without monoclonal gammopathy (Notermans *et al.*), 421
Chronic inflammatory demyelinating polyneuropathy, and immunoglobulin treatment (Hahn *et al.*), 1067
and plasma exchange (Hahn *et al.*), 1055
Clinical and molecular analysis of a large family with three distinct phenotypes of progressive muscular dystrophy (Illarioshkin *et al.*), 1895
Clinical and MRI correlates in 27 patients with acquired pendular nystagmus (Lopez *et al.*), 465
A clinical and neurophysiological study of a patient with an extensive transection of the spinal cord sparing only a part of one anterolateral quadrant (Danziger *et al.*), 1835
Clinical and physiological features of epilepsia partialis continua: cases ascertained in the UK (Cockerell *et al.*), 393
The clinical spectrum of limb girdle muscular dystrophy: a survey in the Netherlands (van der Kooi *et al.*), 1471
Cochlear implant efficiency in pre- and postlingually deaf subjects: a study with $H_2{}^{15}O$ and PET (Okazawa *et al.*), 1297
Cognition affected by levodopa in Parkinson's disease (Kulisevsky *et al.*), 2121
Collaboration between the hemispheres of a callosotomy patient: emerging right hemisphere speech and the left hemisphere interpreter (Gazzaniga *et al.*), 1255
Collateral sprouting of cutaneous nerves in man (Healy *et al.*), 2063
Colour vision in optic neuritis (Porciatti and Sartucci), 723
Coma, and median nerve SEPs (Wagner), 1507
Comprehension impairments (Warrington and Cipolotti), 611
Conduction in a focal nerve lesion (Miller *et al.*), 429
Confabulation (Schnider *et al.*), 1365
Contrast sensitivity in phenylketonuria children (Diamond and Herzberg), 523
Contribution of nerve biopsy findings to the diagnosis of disabling neuropathy in the elderly: a retrospective review of 100 consecutive patients (Chia *et al.*), 1091
Corpus callosum channels (Demirici), 2155; (Zaidel and Iacoboni), 2155
Cortical activity in mental rotation tasks (Cohen *et al.*), 89
Cortical atrophy in progressive fluent aphasia (Harasty *et al.*), 181
Cortical inhibition in Parkinson's disease: a study with paired magnetic simulation (Berardelli *et al.*), 71
Cortical myoclonus, and rhythmic discharge (Brown and Marsden), 1307
inhibition (Brown *et al.*), 309
Cortical pathology of progressive supranuclear palsy (Verny *et al.*), 1123

Cortico-hypoglossal projections in brainstem (Urban *et al.*), 1031
The course of cortico-hypoglossal projections in the human brainstem: functional testing using transcranial magnetic stimulation (Urban *et al.*), 1031
Cutaneous nerve collateral sprouting (Healy *et al.*), 2063
Cytokines, and transient symptoms in multiple sclerosis (Moreau *et al.*), 225
in multiple sclerosis (Navikas *et al.*), 213
Cytopathy, mitochondrial (van Domburg *et al.*), 997

Deactivation of human visual cortex during involuntary ocular oscillations: a PET activation study (Wenzel *et al.*), 101
Deafness and cochlear implant efficiency (Okazawa *et al.*), 1297
Deficits of smooth pursuit eye movements after frontal and parietal lesions (Heide *et al.*), 1951
Demyelinating neuropathy, chronic acquired (Krarup and Trojaborg), 257
of upper limb (Thomas *et al.*), 765
Demyelinating paraproteinaemic polyneuropathy (Gabriel *et al.*), 775
Demyelinating polyneuropathy, chronic inflammatory, and immunoglobulin treatment (Hahn *et al.*), 1067
chronic inflammatory, and plasma exchange (Hahn *et al.*), 1055
Dendritic structure affected by age and hemisphere (Anderson and Rutledge), 1983
Diagonistic dyspraxia: clinical characteristics, responsible lesion and possible underlying mechanism (Tanaka *et al.*), 859
Differences in the recovery of excitability in sensory and motor axons of human median nerve (Kiernan *et al.*), 1099
Differential activation of the prefrontal cortex in successful and unsuccessful memory retrieval (Rugg *et al.*), 2073
Dihydroergotamine inhibition in cat trigeminovascular pathway (Hoskin *et al.*), 249
Directional bias of initial visual exploration: a symptom of neglect in Parkinson's disease (Ebersbach *et al.*), 79
Directional defects in pursuit and motion perception in humans with unilateral cerebral lesions (Barton *et al.*), 1535
Disorders of binocular control of eye movements in patients with cerebellar dysfunction (Versino *et al.*), 1933
Disorientation in amnesia: a confusion of memory traces (Schnider *et al.*), 1627
An [^{18}F]dopa-PET and clinical study of the rate of progression in Parkinson's disease (Morrish *et al.*), 585
Dopamine D_2 receptor binding in Huntington's disease (Antonini *et al.*), 2085
Dopamine metabolism in Parkinson's disease (Morrish *et al.*), 2097
Double dissociations of memory and executive functions in working memory tasks following frontal lobe excisions, temporal lobe excisions or amygdalo-hippocampectomy in man (Owen *et al.*), 1597
Duchenne muscular dystrophy, and brain metabolism in mdx mice (Tracey *et al.*), 1039
Dyslexia as a disconnection syndrome (Paulesu *et al.*), 143
Dyspraxia, diagonistic (Tanaka *et al.*), 859

Early spontaneous hyperperfusion after stroke: a marker of favourable tissue outcome? (Marchal *et al.*), 409
The effect of anti-epileptic drugs on visual perception in patients with epilepsy (Paulus *et al.*), 539
The effect of zidovudine on skeletal muscle mtDNA in HIV-1 infected patients with mild or no muscle dysfunction (Casademont *et al.*), 1357
Effects of levodopa and viscosity on the velocity and accuracy of visually guided tracking in Parkinson's disease (Johnson *et al.*), 801
Effects of magnetic stimulation over supplementary motor area on movement in Parkinson's disease (Cunnington *et al.*), 815
Emotion impairment after amygdala lesion (Angrilli *et al.*), 1991
Emotion perception in Huntington's disease (Sprengelmeyer *et al.*), 1647
Encephalomyelitis in primary hypogammaglobulinaemia (Rudge *et al.*), 1
Encephalomyelitis, acute adoptive transfer experimental allergic (Morrissey *et al.*), 239
Enteroviral infection, and primary hypogammaglobulinaemia (Rudge *et al.*), 1
Epilepsia partialis continua (Cockerell *et al.*), 393
Epilepsy, and anti-epileptic drug effects on visual perception (Paulus *et al.*), 539
and neocortical inhibitory neurons (Marco *et al.*), 1327
childhood, and hippocampal pathology (Mathern *et al.*), 965
seizure pattern analysis (Manford *et al.*), 17
temporal lobe (O'Brien *et al.*), 2133
temporal lobe, and interictal spikes (Merlet *et al.*), 377
temporal lobe, and running down phenomenon (Salanova *et al.*), 989
Episodic memory (Fletcher *et al.*), 1587
An event-related potential study of recognition memory with and without retrieval of source (Wilding and Rugg), 889
Event-related potentials (Hagoort *et al.*), 627
Evoked potentials in coma and brain death (Wagner), 1507
Executive and mnemonic functions in early Huntington's disease (Lawrence *et al.*), 1633
Experimental allergic encephalomyelitis, adoptive transfer (Morrissey *et al.*), 239
Experimental autoimmune neuritis immunotherapy (Jung *et al.*), 1079
Eye–hand coordination, and the cerebellum (Martin *et al.*), 1183
specificity and storage (Martin *et al.*), 1199
Eye movement, binocular, and cerebellar dysfunction (Versino *et al.*), 1933
cerebral control (Lekwuwa *et al.*), 473
cerebral control, phase errors and prediction (Lekwuwa *et al.*), 491
influence on visual cortex activity (Wenzel *et al.*), 101
Eye movements, smooth pursuit (Heide *et al.*), 1951

Face and name identification in Alzheimer's disease (Green and Hodges), 111
Face perception in Huntington's disease (Sprengelmeyer *et al.*), 1647
Facial palsy corrected by nerve graft (Jacobs *et al.*), 271
Feasibility of a visual prosthesis for the blind based on intracortical microstimulation of the visual cortex (Schmidt *et al.*), 507
Flow velocity changes during cognitive activity (Cupini *et al.*), 1249
Focal nerve lesions and impulse conduction (Miller *et al.*), 429
Focal retrograde amnesia and memory recovery (Kapur), 1401; (Spinnler *et al.*), 1403
Focal upper limb demyelinating neuropathy (Thomas *et al.*), 765
Foetal mesencephalic cell transplants in Parkinson's disease (Defer *et al.*), 41
The fractionation of remote memory: evidence from a longitudinal study of dementia of Alzheimer type (Green and Hodges), 129
Frontal lobe dysfunction in amyotrophic lateral sclerosis: a PET study (Abrahams *et al.*), 2105
Frontal lobe epilepsy patterns (Manford *et al.*), 17
Frontal lobe lesions, sequencing deficit (Lepage and Richer), 1289

Function of the left planum temporale in auditory and linguistic processing (Binder *et al.*), 1239
Functional facilitation, paradoxical (Kapur), 1775
Functional neuroanatomy of verbal self-monitoring (McGuire *et al.*), 907

Gait in Parkinson's disease (Morris *et al.*), 551
Gait initiation by patients with lower-half parkinsonism (Elble *et al.*), 1705
Gammopathy, monoclonal, in axonal polyneuropathy (Notermans *et al.*), 421
Gaze adaptation in prism vision (Martin *et al.*), 1183, 1199
Glucose metabolism in Huntington's disease (Antonini *et al.*), 2085
Glycoprotein loss in paraproteinaemic polyneuropathy (Gabriel *et al.*), 775
Golgi tendon organ, inhibition loss in parkinsonism (Burne and Lippold), 1115
reflex inhibition (Burne and Lippold), 1107
Guillain–Barré syndrome in northern China: the spectrum of neuropathological changes in clinically defined cases (Griffin *et al.*), 677; (Menkes and Hood), 676
Guillain–Barré syndrome, and antibody therapy (Jung *et al.*), 1079
prognosis (Italian Guillain–Barré Study Group), 2053

Haemorrhage, thalamic (Chung *et al.*), 1873
Hearing and saying: the functional neuroanatomy of auditory word processing (Price *et al.*), 919
Hearing loss, neural (Starr *et al.*), 741
Heat sensation, paradoxical, in multiple sclerosis (Hansen *et al.*), 1729
Hippocampal atrophy in Alzheimer's disease (Fox *et al.*), 2001
Hippocampal pathology in childhood epilepsy (Mathern *et al.*), 965
Hippocampal sclerosis, cerebral benzodiazepine receptors (Koepp *et al.*), 1677
HIV-1 infection, and inclusion body myositis (Cupler *et al.*), 1887
and zidovudine (Casademont *et al.*), 1357
HTLV-1 infection and inclusion body myositis (Cupler *et al.*), 1887
Human brainstem preganglionic parasympathetic neurons localized by markers for nitric oxide synthesis (Gai and Blessing), 1145
Huntington's disease, early, executive and mnemonic function (Lawrence *et al.*), 1633
face and emotion perception (Sprengelmeyer *et al.*), 1647
metabolism and receptor binding (Antonini *et al.*), 2085
Hyperperfusion and tissue outcome following stroke (Marchal *et al.*), 409
Hypogammaglobulinaemia, with encephalomyelitis (Rudge *et al.*), 1
Hypoglycaemia and visual information processing (McCrimmon *et al.*), 1277

Identification of famous faces and famous names in early Alzheimer's disease: relationship to anterograde episodic and general semantic memory (Green and Hodges), 111
Ideomotor apraxia (Hermsdörfer *et al.*), 1575
Immunotherapy in experimental autoimmune neuritis (Jung *et al.*), 1079
Impaired sensitivity to visual contrast in children treated early and continuously for phenylketonuria (Diamond and Herzberg), 523
Impaired sensory-motor integration during grasping in writer's cramp (Odergren *et al.*), 569
Impulse conduction, and repetitive activity (Kiernan *et al.*), 2029
in a focal nerve lesion (Miller *et al.*), 429
In vivo MRI and its histological correlates in acute adoptive transfer experimental allergic encephalomyelitis: quantification of inflammation and oedema (Morrissey *et al.*), 239
Incidence of multiple sclerosis in Møre and Romsdal, Norway from 1950 to 1991: an age–period–cohort analysis (Midgard *et al.*), 203
Inclusion body myositis in HIV-1 and HTLV-1 infected patients (Cupler *et al.*), 1887
Inflammatory brain changes in Lyme borreliosis: a report on three patients and review of literature (Oksi *et al.*), 2143
The influence of stimulus location on the brain activation pattern in detection and orientation discrimination: a PET study of visual attention (Vandenberghe *et al.*), 1263
Inhibitory neurons in the human epileptogenic temporal neocortex: an immunocytochemical study (Marco *et al.*), 1327
Intelligence, gender and brain development in children (Reiss *et al.*), 1763
Inter-response interference contributes to the sequencing deficit in frontal lobe lesions (Lepage and Richer), 1289
Interhemispheric transfer time (Demirici), 2155; (Zaidel and Iacoboni), 2155
Interictal spikes in temporal lobe epilepsy (Merlet *et al.*), 377
Interjoint coordination during pointing movements is disrupted in spastic hemiparesis (Levin), 281
Intracerebral transplantations in Parkinson's disease (Defer *et al.*), 41
Intracortical microstimulation of visual cortex (Schmidt *et al.*), 507
Intravenous immunoglobulin treatment in chronic inflammatory demyelinating polyneuropathy: a double-blind, placebo-controlled, cross-over study (Hahn *et al.*), 1067
Is developmental dyslexia a disconnection syndrome?: evidence from PET scanning (Paulesu *et al.*), 143
Ischaemic neuropathology (Nukada *et al.*), 1449

Juvenile limb-girdle muscular dystrophy: clinical, histopathological and genetic data from a small community living in the Reunion Island (Fardeau *et al.*), 295

Kinematic analysis of movement imitation in apraxia (Hermsdörfer *et al.*), 1575
Klippel–Feil syndrome and split cervical spinal cord (David *et al.*), 1859
Knee anterior cruciate ligament lesion (Valeriani *et al.*), 1751

Language and left planum temporale (Binder *et al.*), 1239
Language function localization (Caplan *et al.*), 933
Late-onset hereditary ataxia with global thermoanalgesia and absence of fungiform papillae on the tongue in a Japanese family (Fukutake *et al.*), 1011
Leber's hereditary optic neuropathy (Chalmers and Harding), 1481
Lesion load measurement in multiple sclerosis (Filippi *et al.*), 1349
Levodopa effects, on cognition in Parkinson's disease (Kulisevsky *et al.*), 2121
on tracking in Parkinson's disease (Johnson *et al.*), 801
Lewy body disease peptides (Fernandez *et al.*), 823
Lexical–semantic event-related potential effects in patients with left hemisphere lesions and aphasia, and patients with right hemisphere lesions without aphasia (Hagoort *et al.*), 627
Limb girdle muscular dystrophy (van der Kooi *et al.*), 1471
juvenile (Fardeau *et al.*), 295
Line bisection behaviour in neglect (Anderson), 841
Location of lesions in stroke patients with deficits in syntactic processing in sentence comprehension (Caplan *et al.*), 933
Long-term outcome of unilaterally transplanted parkinsonian patients. 1. Clinical approach (Defer *et al.*), 41

Loss of disgust: perception of faces and emotions in Huntington's disease (Sprengelmeyer *et al.*), 1647
Loss of tendon organ inhibition in Parkinson's disease (Burne and Lippold), 1115
Low affinity NGF receptor expression in CMT1A nerve biopsies of different disease stages (Hanemann *et al.*), 1461
Low-threshold calcium spike bursts in the human thalamus: common physiopathology for sensory, motor and limbic positive symptoms (Jeanmonod *et al.*), 363
Lower-half parkinsonism (Elble *et al.*), 1705
Lumbro-sacral radiculopathy, post-irradiation (Bowen *et al.*), 1429
Lyme borreliosis, inflammatory brain changes (Oksi *et al.*), 2143
Lymphotoxin in multiple sclerosis (Navikas *et al.*), 213

Magnetic resonance imaging for acute adoptive transfer experimental allergic encephalomyelitis (Morrissey *et al.*), 239
Magnetic stimulation over supplementary motor area in Parkinson's disease (Cunnington *et al.*), 815
A mathematical model of line bisection behaviour in neglect (Anderson), 841
The mechanisms of spontaneous and provoked confabulations (Schnider *et al.*), 1365
Median nerve SEPs in coma and brain death (Wagner), 1507
Memory, and executive function dissociations (Owen *et al.*), 1597

with tumour necrosis factor-α and lymphotoxin (Navikas *et al.*), 213
Muscle contracture and spasticity following stroke (O'Dwyer *et al.*), 1737
Muscle discharge in cortical myoclonus (Brown and Marsden), 1307
Muscle jerks in cortical myoclonus (Brown *et al.*), 309
Muscle tendon organ, inhibition loss in parkinsonism (Burne and Lippold), 1115
reflex inhibition (Burne and Lippold), 1107
Muscle, skeletal, affected by zidovudine (Casademont *et al.*), 1357
Muscular dystrophy, autosomal recessive (Illarioshkin *et al.*), 1895
Duchenne, and abnormal brain metabolism (Tracey *et al.*), 1039
epidemiology (Fardeau *et al.*), 295
limb girdle (van der Kooi *et al.*), 1471
progressive (Illarioshkin *et al.*), 1895
Myelin-associated glycoprotein loss in paraproteinaemic polyneuropathy (Gabriel *et al.*), 775
Myoclonus (Brown *et al.*), 309; (Cockerell *et al.*), 393
Myopathy induced by botulinum toxin (Hassan and Jennekens), 675; (Odergren), 675
Myotonic dystrophy, oculomotor disturbances (Anastasopoulos *et al.*), 1923
respiratory insufficiency (Zifko *et al.*), 1911

Neglect, and line bisection behaviour (Anderson), 841
in Parkinson's disease (Ebersbach *et al.*), 79
unilateral (Bisiach *et al.*), 851
Neocortical inhibitory cells in epilepsy (Marco *et al.*), 1327
Neocortical temporal lobe epilepsy (O'Brien *et al.*), 2133
Nerve biopsy in diagnosing neuropathy (Chia *et al.*), 1091
Nerve collateral sprouting (Healy *et al.*), 2063
Nerve fibres in man (Nathan *et al.*), 1809
Nerve graft in pacial palsy (Jacobs *et al.*), 271
Nerve growth factor receptor in Charcot–Marie–Tooth biopsies (Hanemann *et al.*), 1461
Nerve regeneration (Jacobs *et al.*), 271
Nerve, peripheral, strength–duration properties (Mogyoros *et al.*), 439
Neural networks, artificial, and

neurodegenerative disorders (Litvan *et al.*), 831
Neuralgia, post-herpetic (Rowbotham and Fields), 347
Neuritis, experimental autoimmune, and antibody therapy (Jung *et al.*), 1079
vestibular (Fetter and Dichgans), 755
Neurodegeneration and artificial neural networks (Litvan *et al.*), 831
Neurofibrillary tangles in progressive supranuclear palsy (Revesz *et al.*), 1137; (Verny *et al.*), 1123
Neurolinguistic and follow-up study of an unusual pattern of recovery from bilingual subcortical aphasia (Aglioti *et al.*), 1551
Neuronal atrophy in ageing (Anderson and Rutledge), 1983
Neuronal cell loss in progressive supranuclear palsy (Revesz *et al.*), 1137
Neuropathic pain (Rowbotham and Fields), 347
Neuropathy, auditory (Starr *et al.*), 741
benign IgM paraproteinaemic, and tremor (Bain *et al.*), 789
chronic acquired demyelinating (Krarup and Trojaborg), 257
demyelinating, of upper limb (Thomas *et al.*), 765
hereditary sensory and autonomic (Fukutake *et al.*), 1011
hereditary sensory, and mytochondrial cytopathy (van Domburg *et al.*), 997
in the elderly (Chia *et al.*), 1091
The neuropsychology of autism (Happé and Frith), 1377
Nitric oxide synthase markers for brainstem neurons (Gai and Blessing), 1145
Non-spatial attention disorders in patients with frontal or posterior brain damage (Godefroy *et al.*), 191
A nosographic analysis of the migraine aura in a general population (Russell and Olesen), 355
Noun and verb retrieval by normal subjects: studies with PET (Warburton *et al.*), 159
The nucleus raphe interpositus in the Steele–Richardson–Olszewski syndrome (progressive supranuclear palsy) (Revesz et al.), 1137
Nystagmus, acquired pendular (Lopez *et al.*), 465

Object recognition, tactile (Platz), 1565
Ocular control and cerebral lesions (Lekwuwa *et al.*), 473, 491
Ocular motor control, disconjugate (Versino *et al.*), 1933
Oculomotor disturbances in myotonic dystrophy (Anastasopoulos *et al.*), 1923
Optic neuritis, and chromatic contrast (Porciatti and Sartucci), 723
with tumour necrosis factor-α and lymphotoxin (Navikas *et al.*), 213
Optic neuropathy, Leber's hereditary (Chalmers and Harding), 1481
Orientation discrimination and regional cerebral blood flow (Vandenberghe *et al.*), 1263

Pain, allodynia and thermal sensation in neuralgia (Rowbotham and Fields), 347
Paradoxical functional facilitation in brain–behaviour research: a critical review (Kapur), 1775
Paradoxical heat sensation in patients with multiple sclerosis: evidence for a supraspinal integration of temperature sensation (Hansen *et al.*), 1729
Paraplegia, autosomal dominant spastic (Dürr *et al.*), 1487
Paraproteinaemic neuropathy, benign IgM, and tremor (Bain *et al.*), 789
Paraproteinaemic polyneuropathy (Gabriel *et al.*), 775
Parkinson's disease, and cortical inhibition (Berardelli *et al.*), 71
and [^{18}F]dopa metabolism (Morrish *et al.*), 2097
and effects of supplementary motor area stimulation (Cunnington *et al.*), 815
and intracerebral transplants (Defer *et al.*), 41
and levodopa effects on cognition (Kulisevsky *et al.*), 2121
and loss of tendon organ inhibition (Burne and Lippold), 1115
and movement initiation (Bötzel and Schulze), 1045; (Jahanshahi *et al.*), 1046
and neglect (Ebersbach *et al.*), 79
and repetitive movements (O'Boyle *et al.*), 51
and stride length regulation (Morris *et al.*), 551
and visually guided tracking (Johnson *et al.*), 801
movement preparation (Praamstra *et al.*), 1689
peptide levels (Fernandez *et al.*), 823
rate of progression (Morrish *et al.*), 585
Parkinsonian gait initiation (Elble *et al.*), 1705
Parkinsonian monkey subthalamotomy (Guridi *et al.*), 1717
Pathology of acute and chronic ischaemic neuropathy in atherosclerotic peripheral vascular disease (Nukada *et al.*), 1449
Pendular nystagmus (Lopez *et al.*), 465
Peptide levels in Parkinson's and Lewy body disease (Fernandez *et al.*), 823
The perception of body verticality (subjective postural vertical) in peripheral and central vestibular disorders (Bisdorff *et al.*), 1523
Perceptional changes after amputation (Knecht *et al.*), 1213
Peripheral nerve strength–duration properties (Mogyoros *et al.*), 439
Peripheral nerve vasculitis (Davies *et al.*), 1441
Peripheral neuropathy, and nerve biopsy (Chia *et al.*), 1091
induced by suramin (Chaudhry *et al.*), 2039
The 'Petites Madeleines' phenomenon in two amnesic patients: sudden recovery of forgotten memories (Kapur), 1401; (Spinnler *et al.*), 1403
Phenotype of autosomal dominant spastic paraplegia linked to chromosome 2 (Dürr *et al.*), 1487
Phenylketonuria, and visual contrast sensitivity (Diamond and Herzberg), 523
Planum temporale in language and hearing (Binder *et al.*), 1239
Plasma-exchange therapy in chronic inflammatory demyelinating polyneuropathy: a double-blind, sham-controlled, cross-over study (Hahn *et al.*), 1055
Pointing movements in spasticity (Levin), 281
Polyneuropathy, chronic idiopathic axonal (Notermans *et al.*), 421
chronic inflammatory demyelinating, and immunoglobulin treatment (Hahn *et al.*), 1067
chronic inflammatory demyelinating, and plasma exchange (Hahn *et al.*), 1055
demyelinating paraproteinaemic (Gabriel *et al.*), 775
Post-herpetic neuralgia (Rowbotham and Fields), 347
The post-irradiation lower motor neuron syndrome: neuronopathy or radiculopathy? (Bowen *et al.*), 1429
Postural vertical, subjective (Bisdorff *et al.*), 1523
Prefrontal cortex in memory retrieval (Rugg *et al.*), 2073
Premotor cortex and action recognition (Gallese *et al.*), 593
Presymptomatic hippocampal atrophy in Alzheimer's disease: a longitudinal MRI study (Fox *et al.*), 2001
Prism-distorted gaze and throwing (Martin *et al.*), 1183, 1199
The prognosis and main prognostic indicators of Guillain–Barré syndrome: a multicentre prospective study of 297 patients (Italian Guillain–Barré Study Group), 2053
Progressive cerebral atrophy in multiple sclerosis: a serial MRI study (Losseff *et al.*), 2009

Progressive muscular dystrophy (Illarioshkin *et al.*), 1895
Progressive supranuclear palsy (Revesz *et al.*), 1137
cortical pathology (Verny *et al.*), 1123
Propriospinal nerve fibre anatomy (Nathan *et al.*), 1809
A prospective study of suramin-induced peripheral neuropathy (Chaudhry *et al.*), 2039
Pursuit deficits and cerebral lesions (Lekwuwa *et al.*), 473
Pursuit perception directional defects (Barton *et al.*), 1535

Quantification of cortical atrophy in a case of progressive fluent aphasia (Harasty *et al.*), 181
Quantitative assessment of MRI lesion load in multiple sclerosis: a comparison of conventional spin-echo with fast fluid-attenuated inversion recovery (Filippi *et al.*), 1349

Reading process components (Pugh *et al.*), 1221
Recognition memory (Wilding and Rugg), 889
Reflex inhibition following electrical stimulation over muscle tendons in man (Burne and Lippold), 1107
Regeneration through a long nerve graft used in the correction of facial palsy: a qualitative and quantitative study (Jacobs *et al.*), 271
Regional brain activity during working memory tasks (Salmon *et al.*), 1617
Regional changes in [^{18}F]dopa metabolism in the striatum in Parkinson's disease (Morrish *et al.*), 2097
The relationship of pain, allodynia and thermal sensation in post-herpetic neuralgia (Rowbotham and Fields), 347
Remote memory in Alzheimer's disease (Green and Hodges), 111, 129
Reorganizational and perceptional changes after amputation (Knecht *et al.*), 1213
Repetitive activity and impulse conduction (Kiernan *et al.*), 2029
Residual vision and V1 lesion (ffytche *et al.*), 1971
Respiratory insufficiency in myotonic dystrophy (Zifko *et al.*), 1911
Reticulospinal nerve fibre anatomy (Nathan *et al.*), 1809
Retinal and cortical evoked responses to chromatic contrast stimuli: specific losses in both eyes of patients with multiple sclerosis and unilateral optic neuritis (Porciatti and Sartucci), 723
Retrograde amnesia and memory recovery (Kapur), 1401; (Spinnler *et al.*), 1403
Rhythmic cortical and muscle discharge in cortical myoclonus (Brown and Marsden), 1307
Right hemisphere speech after callosotomy (Gazzaniga *et al.*), 1255
Riley–Day syndrome (Fukutake *et al.*), 1011
The running down phenomenon in temporal lobe epilepsy (Salanova *et al.*), 989

Saccadic eye movements in myotonic dystrophy (Anastasopoulos *et al.*), 1923
Saggital sinus, mechanical stimulation (Hoskin *et al.*), 1419
Scalp, earlobe and nasopharyngeal recordings of the median nerve somatosensory evoked P14 potential in coma and brain death: detailed latency and amplitude analysis in 181 patients (Wagner), 1507
Seizure pattern analysis (Manford *et al.*), 17
Seizures, childhood, and hippocampal pathology (Mathern *et al.*), 965
Selective loss of myelin-associated glycoprotein from myelin correlates with anti-MAG antibody titre in demyelinating paraproteinaemic polyneuropathy (Gabriel *et al.*), 775
Self-initiated versus externally triggered movements. 1. An investigation using measurement of regional cerebral blood flow with PET and movement-related potentials in normal and Parkinson's disease subjects (Bötzel and Schulze), 1045; (Jahanshahi *et al.*), 1046
Self-monitoring of speech (McGuire *et al.*), 907
Semantic dementia, and cortical atrophy (Harasty *et al.*), 181
Sensory axon excitability recovery (Kiernan *et al.*), 1099
Sensory neuropathy, hereditary (van Domburg *et al.*), 997
Sensory pathophysiology in chronic acquired demyelinating neuropathy (Krarup and Trojaborg), 257
Sensory pathways after spinal cord transection (Danziger *et al.*), 1835
Sensory-motor integration in writer's cramp (Odergren *et al.*), 569
Sequencing deficit in frontal lobe lesions (Lepage and Richer), 1289
Shape perception (Reed *et al.*), 875
The significance of cortical pathology in progressive supranuclear palsy: clinico-pathological data in 10 cases (Verny *et al.*), 1123
Significance of mesial temporal atrophy in relation to intracranial ictal and interictal stereo EEG abnormalities (Cendes *et al.*), 1317
Single-joint rapid arm movements in normal subjects and in patients with motor disorders (Berardelli *et al.*), 661
Skeletal muscle, and zidovudine (Casademont *et al.*), 1357
Smooth pursuit deficits (Lekwuwa *et al.*), 473, 491
Smooth pursuit eye movement after lesions (Heide *et al.*), 1951
Smooth pursuit eye movements in myotonic dystrophy (Anastasopoulos *et al.*), 1923
Sodium current inactivation in multiple sclerosis (Köller *et al.*), 457
Somatosensory evoked P14 potentials in coma and brain death (Wagner), 1507
Somatosensory evoked potentials and knee proprioception (Valeriani *et al.*), 1751
Somatosensory perception (Reed *et al.*), 875
Somatotopic motor representation in the human anterior cerebellum: a high-resolution functional MRI study (Nitschke *et al.*), 1023
Source propagation of interictal spikes in temporal lobe epilepsy: correlations between spike dipole modelling and [^{18}F]fluorodeoxyglucose PET data (Merlet *et al.*), 377
Space representation and unilateral neglect (Bisiach *et al.*), 851
Spastic hemiparesis and interjoint coordination (Levin), 281
Spastic paraplegia, autosomal dominant (Dürr *et al.*), 1487
Spasticity and muscle contracture following stroke (O'Dwyer *et al.*), 1737
Spatial orientation in vestibular disorders (Bisdorff *et al.*), 1523
Speech, in right hemisphere after callosotomy (Gazzaniga *et al.*), 1255
self-monitoring of (McGuire *et al.*), 907
Spinal cord atrophy and disability in multiple sclerosis: a new reproducible and sensitive MRI method with potential to monitor disease progression (Losseff *et al.*), 701
Spinal cord anatomy (Nathan *et al.*), 1809
Spinal cord transection and functional reorganization (Danziger *et al.*), 1835
Spinal MRI in patients with suspected multiple sclerosis and negative brain MRI (Thorpe *et al.*), 709
Split brain, and right hemisphere speech (Gazzaniga *et al.*), 1255
reaction times (Demirici), 2155; (Zaidel and Iacoboni), 2155
Split cervical spinal cord with Klippel–Feil syndrome: seven cases (David *et al.*), 1859
Startle reflex and emotion modulation impairment after a right amygdala lesion (Angrilli *et al.*), 1991
Steele–Richardson–Olszewski syndrome, see progressive supranuclear palsy

Stimulus location and parietal function (Vandenberghe *et al.*), 1263
Strength–duration properties of human peripheral nerve (Mogyoros *et al.*), 439
Striatal glucose metabolism and dopamine D_2 receptor binding in asymptomatic gene carriers and patients with Huntington's disease (Antonini *et al.*), 2085
Stride length regulation in Parkinson's disease: normalization strategies and underlying mechanisms (Morris *et al.*), 551
Stroke, and early hyperperfusion (Marchal *et al.*), 409
and motor recovery (Pantano *et al.*), 1849
and movement coordination (Levin), 281
followed by spasticity and muscle contracture (O'Dwyer *et al.*), 1737
lesion and syntactic comprehension (Caplan *et al.*), 933
Subcortical aphasia, bilingual (Aglioti *et al.*), 1551
Subjective postural vertical in vestibular disorders (Bisdorff *et al.*), 1523
Subthalamotomy in parkinsonian monkeys: behavioural and biochemical analysis (Guridi *et al.*), 1717
Sumatriptan can inhibit trigeminal afferents by an exclusively neural mechanism (Hoskin *et al.*), 1419
Supplementary motor area stimulation in Parkinson's disease (Cunnington *et al.*), 815
Supranuclear gaze palsy in progressive supranuclear palsy (Revesz *et al.*), 1137
Suramin-induced peripheral neuropathy (Chaudhry *et al.*), 2039
Sweat recovery following nerve resection (Healy *et al.*), 2063
Syntactic comprehension in stroke (Caplan *et al.*), 933

T-cell apoptosis (Gold *et al.*), 651
T-cell directed immunotherapy of inflammatory demyelination in the peripheral nervous system: potent suppression of the effector phase of experimental autoimmune neuritis by anti-CD2 antibodies (Jung *et al.*), 1079
Tactile agnosia: casuistic evidence and theoretical remarks on modality-specific meaning representations and sensorimotor integration (Platz), 1565
Tactile agnosia: underlying impairment and implications for normal tactile object recognition (Reed *et al.*), 875
Temporal lobe epilepsy caused by mesial temporal sclerosis and temporal neocortical lesions: a clinical and electroencephalographic study of 46 pathologically proven cases (O'Brien *et al.*), 2133
Temporal lobe epilepsy, and interictal spikes (Merlet *et al.*), 377
patterns (Manford *et al.*), 17
surgery outcome (Salanova *et al.*), 989
Temporal neocortex inhibitory neurons (Marco *et al.*), 1327
Tendon organ inhibition loss in parkinsonism (Burne and Lippold), 1115
Tendon organ reflex inhibition (Burne and Lippold), 1107
Thalamic haemorrhage (Chung *et al.*), 1873
Thalamic low-threshold calcium spike bursts (Jeanmonod *et al.*), 363
Thermal sensation, allodynia and pain in neuralgia (Rowbotham and Fields), 347
Thermoanalgesia in hereditary ataxia (Fukutake *et al.*), 1011
Thermoreception in multiple sclerosis (Hansen *et al.*), 1729
Throwing while looking through prisms. 1. Focal olivocerebellar lesions impair adaptation (Martin *et al.*), 1183
Throwing while looking through prisms. 2. Specificity and storage of multiple gaze–throw calibrations (Martin *et al.*), 1199
Transcallosal inhibition (Brown *et al.*), 309
Transcranial Doppler monitoring in working memory tasks (Cupini *et al.*), 1249
Transient increase in symptoms associated with cytokine release in patients with multiple sclerosis (Moreau *et al.*), 225
Tremor associated with benign IgM paraproteinaemic neuropathy (Bain *et al.*), 789
Trigeminovascular pathway in the cat is inhibited by dihydroergotamine (Hoskin *et al.*), 249
Tumour necrosis factor increases intracellular Ca^{2+} and induces a depolarization in cultured astroglial cells (Köller *et al.*), 2021
Tumour necrosis factor-α in multiple sclerosis (Navikas *et al.*), 213

Using a computerized system for behavioural laterality experiments (Zaidel and Iacoboni), 2155

Vascular disease neuropathology (Nukada *et al.*), 1449
Vasculitis, and encephalitis associated with Lyme borreliosis (Oksi *et al.*), 2143
confined to peripheral nerves (Davies *et al.*), 1441
in the elderly (Chia *et al.*), 1091
Verbal self-monitoring neuroanatomy (McGuire *et al.*), 907
Vertebral fusion and split cervical spinal cord (David *et al.*), 1859
Vestibular neuritis spares the inferior division of the vestibular nerve (Fetter and Dichgans), 755
Vestibuloocular reflex (Fetter and Dichgans), 755
Vestibulospinal, reticulospinal and descending propriospinal nerve fibres in man (Nathan *et al.*), 1809
Viscosity effects on tracking in Parkinson's disease (Johnson *et al.*), 801
Vision, residual, and V1 lesion (ffytche *et al.*), 1971
Visual attention (Vandenberghe *et al.*), 1263
Visual contrast sensitivity in phenylketonuria (Diamond and Herzberg), 523
Visual cortex, deactivation during involuntary eye movements (Wenzel *et al.*), 101
intracortical microstimulation (Schmidt *et al.*), 507
lesion, bilateral effects (Rizzo and Robin), 951
Visual directional bias in Parkinson's disease (Ebersbach *et al.*), 79
Visual information processing during controlled hypoglycaemia in humans (McCrimmon *et al.*), 1277
Visual perception and anti-epileptic drugs (Paulus *et al.*), 539
Visual prosthesis for the blind (Schmidt *et al.*), 507
Visually guided tracking in Parkinson's disease (Johnson *et al.*), 801

What can artificial neural networks teach us about neurodegenerative disorders with extrapyramidal features? (Litvan *et al.*), 831
Word comprehension: the distinction between refractory and storage impairments (Warrington and Cipolotti), 611
Word processing, auditory (Price *et al.*), 919
Word retrieval (Warburton *et al.*), 159
Working memory, and regional brain activity (Salmon *et al.*), 1617
double dissociations (Owen *et al.*), 1597
tasks and flow velocity changes (Cupini *et al.*), 1249
Writer's cramp, and impaired sensory-motor integration (Odergren *et al.*), 569

Zidovudine effect on skeletal muscle (Casademont *et al.*), 1357

The editor and the editorial board are most grateful to the following referees who have helped during the year November 1, 1995 to October 31, 1996
